Subject: Table on Retained Waters Options

Attached is the table we discussed at team meeting this morning, as well as notes on the 8-28 call with the Corps.

Kathy would like any comments on the table by tomorrow. (Meeting notes are fyi)

Thanks!
Ruth

Subject: for review - 404g Retained Water Options 9-19 version.docx

Hi,

Attached are meeting notes from our last discussion with William about options to define assumable waters as well as a table of options to facilitate our next discussion.

Based upon discussions as a group or one-on-one with each of you, I and Pat discussed trying to put the options on paper in the format we are using for the briefings with Sr. Management (although this version does not have staff recommendations). In in the 404g Retained water option 9:19 paper, Pat and I added few new ideas and refined others trying to have a full suite of options for discussion. This is our attempt to move our next conversation with the Army and Corps forward.

Please let me know your thoughts on this. Happy to have a call to explain what we were trying to capture/thinking.

If you have a chance to review in the next couple of days that would be great, then we can potentially send to Army and Corps before our next meeting (still needs to be scheduled).

Thanks, Kathy
